EDUCATION

- 2014-2018** ● secondary school
BRG 18, 1180 Vienna, Schoppenhauerstraße 49
- 2018-2023** ● higher technical school for media design
HTBLuVA Wien 5, 1050 Vienna, Spengergasse 20
- since 2024** ● bachelor computer science
BSc Informatik — TU Wien Informatics

EXPERIENCE

- 2018** ● ***Practical Days*** at Trafo Architektur Kirchmayr und Nöbauer GesbR., Vienna
 - Working on an architectural project as a team
 - 3d-modelling in AutoCAD
 - Designing an environment model for a planned project
- 2020** ● ***Internship*** bei LOYTEC electronics GmbH., Vienna
 - Softwaredevelopment with C# in WPF
 - Designing an interface for establishing connections with automation devices
 - implementations of TCP connections to Linux-devices
- spring 2022** ● ***Search Engine Optimization*** for MCH Media Consulting & Holding GmbH., Vienna
 - Optimization of the project structure for better indexing
 - Keyword optimization
 - Performance optimizations, like the implementation of caching
- summer 2022** ● ***Browser-Game*** against Fast-Fashion for the MAK., Vienna
 - Gamedevelopment in Unity
 - 3d modelling in Blender
 - Interactions between players using a Node server

SKILLS

Programming in C#

5 years practical experience with C# development in **Unity**
Practical experience with **WPF** using C#

Vulkan, WebGPU

Low-level implementation of **simulations**
Programmierung in **C++ & Rust**

3d in Blender & Substance Painter

Creations of **150 Daily-Renders**
Game-ready-assets

2d in Figma, Photoshop & Illustrator

2d-graphics for video-games or and web
Website-Designs

React, Svelte, WebAssembly

HTML, CSS, **TypeScript**, Javascript, **Wasm** in Rust

ABOUT ME

My name is Konrad Hapke, and I am currently studying **Computer Science** at **TU Wien**.

Before that, I spent five years at **HTL Spengergasse** specializing in game development with **C#** and Unity.

Along the way, I gained experience in **3D design** (Blender) and **2D** art and audio tools like Photoshop, Illustrator, and Figma.

Through an internship at **LOYTEC** and a project at **MAK**, I also expanded my skills in networking and applied technologies.

In addition to school, I pursued web development and graphics programming through personal projects.
